

ROLEO® SIT-TO-STAND AID – TRANSFER AID

Made by Leonair

Turning around with ROLEO makes transfer easy and saves space.

- Enables healthy-back working
- Easy to operate
- Provides motorised support
- Highly tilt-resistant
- Easy on joints
- Avoids shoulder problems due to belt attachment in pelvic area
- Promotes existing mobility, also suitable for standing exercises
- Provides firm and safe support during transfer

Basic equipment

- Support column
- Anti-tilt supports at front and back
- 4 wheels, locking brake
- 360° turntable
- Multi-grip bars
- Shinbone rest, adjustable
- Patient belt
- Lift system providing motorised support, including manual control unit, battery pack and charger

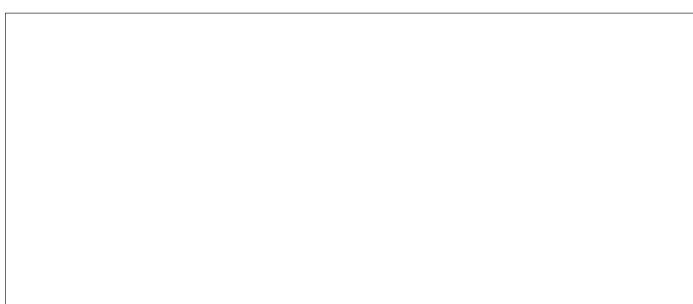

Indication Persons with a limited range of motion and functional restrictions in the lower extremities and the pelvic girdle, which make it difficult or impossible for them to get up without assistance. Patients confined to bed, for short-term seated transfer and transport in sitting position.

Contraindication Persons unable to put weight on their feet for a short time although having handlebars for both hands and being supported with a tension band and shinbone rests.
